

ROCKSTAR™ AMPED

BEHIND THE DESIGN: This isn't just a ball; it's a mosh pit of power, precision, and pure rock and roll rebellion, engineered to make every shot a chart-topping performance.

The revolutionary new NanoStar Pearl coverstock steals the show consistently time and time again thanks to the medium load of nano-particles blended throughout. Don't say we didn't warn you. This isn't some quiet acoustic set; it's a roaring wall of sound! The NanoStar Pearl Cover is designed to grip the lane like a guitar solo grips your soul, delivering an amped-up backend reaction.

But the hits don't stop there. Beneath the shredding cover lies the heart and soul of it all, the Rocker + A.I. Core Technology. This isn't just a core; it's the lead singer and the rhythm section all rolled into one! The Rocker Core provides the raw, untamed power, generating a high-revving, aggressive motion that pushes through the pins like a power chord through a stack of amplifiers.

PRODUCT DETAILS:

COVERSTOCK: NanoStar™ Pearl Reactive

CORE: Rocker™ + A.I. Core Technology

COLOR: Chili / Maroon / Raspberry

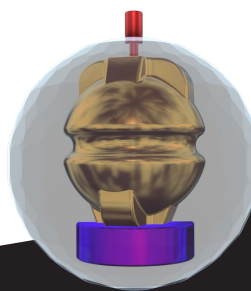

FINISH: Power Edge™
