14 lb	2.58	.037
13 lb	2.59	.045
12 lb	2.65	.035

DESIGN INTENT:

The Hy-Road, with major victories from the PBA tour to international championships, has more than proven itself. At over 15 years within the Storm catalog, the Hy-Road features a perfectly matched core/cover combination. The R2S hybrid cover will be sure to retain as much ball speed as possible before unleashing one of the most devastating backends of all time. Perfectly matching the cover is the Inverted Fe² weight block. With its thicker shell, this weightblock transfers more energy to the pins making it one of the most special balls in the history of bowling. Medium-light conditions will offer little resistance for the Hy-Road.
