IONTM MAX PEARL

PRODUCT DETAILS:

COVERSTOCK: NRGTM Pearl Reactive
WEIGHT BLOCK: ElementTM Max A.I. Core
FACTORY FINISH: Power EdgeTM
COLOR: Cobalt / Aqua / Ivory
FLARE POTENTIAL: High
FRAGRANCE: Pineapple Cherry Delight
AVAILABLE WEIGHTS: 12 - 16 lbs.
PRODUCT SKU: VIM

DESIGN INTENT:

The Ion Max, having already established itself as the premier heavy oil option in the Storm lineup, naturally called for a companion piece to handle the transition. Enter the Ion Max Pearl. Featuring the same trusted NRG cover formulation—this time in a polished pearl version—the Ion Max Pearl steps in precisely when the original Ion Max begins to read too early. The NRG Pearl cover, known for its higher oil absorption rate and Power Edge finish, creates consistent traction through the midlane while delivering a quick, decisive motion at the breakpoint. At the heart of the ball lies the Element Max A.I. Core, one of the lowest RG asymmetric cores Storm has ever engineered. Its fast-revving nature generates eye-catching torque and a powerful midlane roll. Thanks to its unique design, the core's dynamics shift dramatically based on layout adjustments. Drilling closer to the PSA increases intermediate differential, giving pro shop operators greater control in fine-tuning the overall motion and reaction shape.
