IONTM PRO

PRODUCT DETAILS:

COVERSTOCK: TX-16TM Hybrid Reactive
WEIGHT BLOCK: ElementTM Tour A.I. Core
FACTORY FINISH: 4000-grit Abralon®
COLOR: Navy / Carbon / Steel
FLARE POTENTIAL: Medium
FRAGRANCE: Kiwi Tart
AVAILABLE WEIGHTS: 12 - 16 lbs.
PRODUCT SKU: VIP

	RG	DIFF	PSA
16 lb	2.47	.035	.013
15 lb	2.47	.035	.014
14 lb	2.51	.036	.010
13 lb	2.56	.034	.011
12 lb	2.58	.031	.009

DESIGN INTENT:

The Ion Pro was designed to redefine what "Benchmark" truly means. Starting with the cover, it is difficult to find a cover as reliable as TX-16. First established by the Phaze II, TX-16 has been inspiring confidence in bowlers around the world for years. In this hybrid version, it joins length with strength to create versatility on a level rarely seen. The stacked ellipse design of the Element Core places the smaller ellipses towards the ends of the X-Axis and the widest ellipse at the center of the Y-Axis. This concept is contrary to the rules that asymmetric bowling balls usually follow. With each subsequent ellipse being offset and skinnier than the previous one, we have created more asymmetry with each stairstep. This allows the driller to significantly increase the intermediate differential if drilling close to the PSA.
